## 1. What is this product?

<b>Type</b>	English law governed notes
<b>Objectives</b>	The product is designed to provide a return in the form of a cash payment on termination of the product. The amount of this payment will depend on the performance of the <b>underlying</b> . The product has a fixed term and will terminate on the <b>maturity date</b> , unless terminated early.
(Terms that appear in bold in this section are described in more detail in the table(s) below.)	<b>Early termination following a call:</b> We have the right, exercisable on each <b>call exercise date</b> , to terminate the product. In this case, the product will terminate and you will on the immediately following <b>call payment date</b> receive a cash payment equal to the applicable <b>call payment</b> . The relevant dates and <b>call payments</b> are shown in the table below.

**Termination on the maturity date:** If the product has not terminated early, on the **maturity date** you will receive a cash payment equal to (i) USD 1,000 plus (ii) an amount directly linked to the performance of the **underlying**. This amount will equal (i) USD 2,300 (i.e., 230.00% of the **product notional amount**) multiplied by (ii) (x) (A) the **final reference level** divided by (B) the **initial reference level** minus (y) 100.00%. **However, if this cash payment is less than USD 1,000, you will receive USD 1,000 (the minimum payment).**

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

**Intended retail investor** The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, with experience of investing in and/or holding a number of similar products providing a similar market exposure, either independently or through professional advice;
  2. they seek capital growth, expect the movement in the underlying to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
  3. they accept the risk that the issuer could fail to pay or perform its obligations under the product but otherwise they are not able to bear any loss of their investment; and
  4. they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.
- The product is not intended to be offered to retail clients who do not fulfil these criteria.

## 2. What are the risks and what could I get in return?

Risk indicator

**The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk:** If the currency of the product is different from the currency of the country in which you live, you will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

You are entitled to receive back at least 100.00% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash in before maturity or in case of immediate termination by the issuer.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

**Performance scenarios** Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: USD 10,000.00				
Scenarios		1 year	4 years	7 years (Recommended holding period)
<b>Stress scenario</b>	<b>What you might get back after costs</b>	USD 8,637.59	USD 9,223.69	USD 10,000.00
	Average return each year	-13.59%	-1.94%	0.00%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	USD 8,912.40	USD 9,337.61	USD 10,000.00
	Average return each year	-10.85%	-1.65%	0.00%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	USD 10,760.00	USD 10,760.00	USD 10,760.00
	Average return each year	7.58%	1.90%	1.09%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	USD 10,760.00	USD 10,760.00	USD 10,760.00
	Average return each year	7.58%	1.90%	1.09%

This table shows the money you could get back over the next 7 years under different scenarios, assuming that you invest USD 10,000.00.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## 3. What happens if the issuer is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

## 4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest USD 10,000.00. The figures are estimates and may change in the future.

**Costs over time**

Investment: USD 10,000.00			
Scenarios	If you cash in after 1 year	If you cash in after 4 years	If you cash in at the end of the recommended holding period
<b>Total costs</b>	USD 1,348.61	USD 1,227.34	USD 1,163.47

<b>Impact on return (RIY) per year</b>	13.49%	3.07%	1.66%
--	--------	-------	-------

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

**Composition of costs** The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

**The table shows the impact on return per year.**

<b>One-off costs</b>	<i>Entry costs</i>	1.66%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.

## 5. How long should I hold it and can I take money out early?

### Recommended holding period: 7 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 19 June 2026 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is listed) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	Not applicable	<b>Price quotation</b>	Percentage
<b>Smallest tradable unit</b>	USD 1,000.00		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

## 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: One Cabot Square, London E14 4QJ, United Kingdom, by email to: [kid.enquiries@credit-suisse.com](mailto:kid.enquiries@credit-suisse.com) or at the following website: [www.credit-suisse.com/derivatives](http://www.credit-suisse.com/derivatives).
