You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type	The product is in the form of a debt instrument, governed by English law.
Objectives	To provide interest payment(s), in return for the risk of loss of capital. Amounts stated below are in respect of each Nominal Amount that you invest.

- **Autocall Event:** if the Worst Underlying Performance is greater than or equal to 0% on any Autocall Valuation Date, the product will be redeemed early and you will receive, in addition to the Nominal Amount, an amount equal to the Interest Amount corresponding to the Interest Amount per period on the immediately following Payment Date. No further payments of principal or interest will be made following such payment and early redemption.
- **Redemption amount on the Maturity Date:**
 - If the product is not redeemed early, then you will receive one of the following:
 - ◇ If a Barrier Event has NOT occurred:
 - If the Worst Final Underlying Performance is greater than or equal to 0%, you will receive in addition to the Nominal Amount, the Interest Amount corresponding to the Interest Amount per period.
 - If the Worst Final Underlying Performance is lower than 0%, you will receive the Nominal Amount.
 - ◇ Otherwise, you will receive an amount equal to the Nominal Amount diminished by an amount equal to the Nominal Amount multiplied by the absolute value of the Worst Final Underlying Performance. **The amount paid in such case will be less than the Nominal Amount and you may lose some or all of your capital.**

Early redemption and adjustments

The terms of the product provide that if certain defined events, in addition to those described above, occur (principally but not exclusively in relation to any Underlying, or the Issuer of the product, which may include the discontinuation of the Issuer's ability to carry out the necessary hedging transactions), adjustments may be made to the terms of the product to account for the relevant event or the product may be early redeemed. The amount paid on any early redemption may be less than the amount originally invested.

Intended retail investor

This product is intended for retail investors who:

- have capital growth objective
- are willing and able to bear a total capital loss and accept the credit risk of the Issuer and the Guarantor
- have a risk tolerance consistent with the summary risk indicator in this document
- have significant knowledge and experience in products such as the one described in this document
- have a minimum investment horizon consistent with the recommended holding period

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator

The risk indicator assumes you keep the product until 3 September 2026. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium-high risk class. This takes into consideration two elements: 1) the market risk - that rates the potential losses from future performance at a medium-high level; and 2) the credit risk which estimates that poor market conditions are very unlikely to impact the capacity of the Issuer and the Guarantor to pay you. **You will receive payments in the product's currency, which may be different from your domestic currency. In this case, be aware of currency risk. The final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.** This product does not include any protection from future market performance so you could lose some or all of your investment. If the Issuer and the Guarantor are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment GBP 10,000				
Scenarios		1 year	3 years	6 years (Recommended holding period)
Stress scenario	What you might get back after costs	GBP 326	GBP 2,408	GBP 1,284
	Average return each year	-96.75%	-37.80%	-28.98%
Unfavourable scenario	What you might get back after costs	GBP 4,813	GBP 4,966	GBP 3,984
	Average return each year	-51.90%	-20.81%	-14.22%
Moderate scenario	What you might get back after costs	GBP 10,420 (Ω)	GBP 10,420 (Ω)	GBP 10,420 (Ω)
	Average return each year	4.20% (Ω)	1.38% (Ω)	0.69% (Ω)
Favourable scenario	What you might get back after costs	GBP 12,691	GBP 13,360 (Ω)	GBP 14,620 (Ω)
	Average return each year	26.93%	10.14% (Ω)	6.54% (Ω)

(Ω) Product redeemed early, prior to Maturity Date.

This table shows the money you could get back over the next 6 years, under different scenarios, assuming that you invest GBP 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF NATIXIS IS UNABLE TO PAY OUT?

If the Issuer and the Guarantor become subject to resolution measures in the form of the bail-in tool ("bail-in"), your claim may be reduced to zero, converted into equity or its maturity may be postponed. This product is not protected by any investor compensation or guarantee scheme. If the Issuer and the Guarantor are unable to make a payment and/or are in default, you may lose some or all of your invested amount and any payment may be delayed.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get.

The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for 3 different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment GBP 10,000			
Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at the end of the recommended holding period
Total costs	GBP 857	GBP 811	GBP 800
Impact on return (RIY) per year	8.57%	2.70%	1.33%

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- The meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry costs	1.33%	The impact of the costs you pay when entering into your investment. The impact of these costs is already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.00%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	0.00%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	0.00%	Not applicable
	Carried interests	0.00%	Not applicable

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: 6 years.

The recommended holding period corresponds with the maturity date of the product, as the product is designed to be held until then. Any recommendation regarding the holding period may be irrelevant for a speculative investor. For investors purchasing the product for hedging purposes the holding period depends on the holding period of the underlying risk.

Natixis may provide an indicative price of the product to holders who so request. The spread between the purchase price and the sale price will not be greater than 1%. If you want to sell this product before the Maturity Date, the price of the product will depend on market parameters at the time you wish to sell. In this case you may sustain a partial or total capital loss. More information available upon request.
