Date and time of production	5 May 2021 16:33 London local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type	English law governed notes
Objectives (Terms that appear in bold in this section are described in more detail in the table(s) below.)	<p>The product is designed to provide a return in the form of (1) conditional interest payments and (2) a cash payment on termination of the product. The timing and amount of these payments will depend on the performance of the underlying. The product has a fixed term and will terminate on the maturity date, unless terminated early. If, at maturity, the final reference price of the underlying has fallen below the barrier price, the product may return less than the product notional amount or even zero.</p> <p>Early termination following an autocall: The product will terminate prior to the maturity date if, on any autocall observation date, the reference price is at or above the autocall barrier price. On any such early termination, you will on the immediately following autocall payment date receive, in addition to any final interest payment, a cash payment equal to the autocall payment of GBP 1,000. No interest payments will be made on any date after such autocall payment date. The relevant dates are shown in the table(s) below.</p>

<i>Autocall observation dates</i>	<i>Autocall payment dates</i>
5 June 2023	12 June 2023
5 September 2023	12 September 2023
4 December 2023	11 December 2023
4 March 2024	11 March 2024
4 June 2024	11 June 2024
4 September 2024	11 September 2024
4 December 2024	11 December 2024
4 March 2025	11 March 2025
4 June 2025	11 June 2025
4 September 2025	11 September 2025
4 December 2025	11 December 2025
4 March 2026	11 March 2026
4 June 2026	11 June 2026
4 September 2026	11 September 2026
4 December 2026	11 December 2026
4 March 2027	11 March 2027

Interest: If the product has not terminated early, on each **interest payment date** you will receive an interest payment of GBP 14 together with any previously unpaid interest payments if the **reference price** is at or above the **interest barrier price** on the immediately preceding **interest observation date**. If this condition is not met, you will receive no interest payment on such **interest payment date**. The relevant dates are shown in the table(s) below.

<i>Interest observation dates</i>	<i>Interest payment dates</i>
7 September 2021	14 September 2021
6 December 2021	13 December 2021
4 March 2022	11 March 2022
6 June 2022	13 June 2022
6 September 2022	13 September 2022
5 December 2022	12 December 2022
6 March 2023	13 March 2023

4 September 2026	11 September 2026

4 December 2026	11 December 2026
4 March 2027	11 March 2027
4 June 2027	Maturity date

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive:

1. if the **final reference price** is at or above the **barrier price**, a cash payment equal to GBP 1,000; or
2. if the **final reference price** is below the **barrier price**, a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** divided by (B) the **strike price**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price may include accrued interest on a pro rata basis.

You do not have any entitlement to a distribution from the **underlying** and you have no right to any further entitlement resulting from the **underlying** (e.g., voting rights).

Underlying	Shares of the Invesco WilderHill Clean Energy ETF (ISIN: US46137V1347; Bloomberg: PBW UP Equity)	Barrier price	60.00% of the initial reference price
Underlying market	Equity	Reference price	The closing price of the underlying as per the reference source
Product notional amount	GBP 1,000	Reference source	New York Stock Exchange, Inc.
Issue price	100.00% of the product notional amount	Final reference price	The reference price on the final valuation date
Product currency	Pound Sterling (GBP)	Initial valuation date	4 June 2021
Underlying currency	U.S. Dollar (USD)	Final valuation date	4 June 2027
Issue date	11 June 2021	Maturity date / term	11 June 2027
Initial reference price	The reference price on the initial valuation date	Autocall barrier price	100.00% of the initial reference price
Strike price	100.00% of the initial reference price	Interest barrier price	80.00% of the initial reference price

Intended retail investor The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, with experience of investing in and/or holding a number of similar products providing a similar market exposure, either independently or through professional advice;
2. they seek income, expect the movement in the underlying to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
3. they accept the risk that the issuer could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
4. they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

The product is not intended to be offered to retail clients who do not fulfil these criteria.

2. What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 6 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk: If the currency of the product is different from the currency of the country in which you live, you will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

<i>Investment: GBP 10,000.00</i>				
Scenarios	1 year	3 years	6 years (Recommended holding period)	
Stress scenario	What you might get back after costs	GBP 1,949.75	GBP 3,318.64	GBP 837.20
	Average return each year	-80.06%	-22.25%	-15.27%

Unfavourable scenario	What you might get back after costs	GBP 9,459.26	GBP 11,120.00	GBP 11,120.00
	Average return each year	-5.38%	3.73%	1.87%
Moderate scenario	What you might get back after costs	GBP 10,912.41	GBP 11,120.00	GBP 11,120.00
	Average return each year	9.07%	3.73%	1.87%
Favourable scenario	What you might get back after costs	GBP 10,962.42	GBP 11,120.00	GBP 11,260.00
	Average return each year	9.57%	3.73%	2.10%

This table shows the money you could get back over the next 6 years under different scenarios, assuming that you invest GBP 10,000.00.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the issuer is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000.00. The figures are estimates and may change in the future.

Costs over time

<i>Investment: GBP 10,000.00</i>			
Scenarios	<i>If you cash in after 1 year</i>	<i>If you cash in after 3 years</i>	<i>If you cash in at the end of the recommended holding period</i>
Total costs	GBP 1,975.88	GBP 1,778.52	GBP 1,679.29
Impact on return (RIY) per year	19.76%	5.93%	2.80%

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.

One-off costs			
	<i>Entry costs</i>	2.80%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.

5. How long should I hold it and can I take money out early?

Recommended holding period: 6 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 11 June 2027 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Not applicable	Price quotation	Percentage
Smallest tradable unit	GBP 1,000		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: One Cabot Square, London E14 4QJ, United Kingdom, by email to: kid.enquiries@credit-suisse.com or at the following website: www.credit-suisse.com/derivatives.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are published on www.credit-suisse.com/derivatives, all in accordance with relevant legal requirements. These documents are also available free of charge from One Cabot Square, London E14 4QJ, United Kingdom.
