

BNP PARIBAS CAPITAL PROTECTED GROWTH PARTICIPATION

AUGUST 2023 FACTSHEET

TARGET RETURN: USD = 100% PARTICIPATION CAPPED AT 127%

INVESTMENT DESCRIPTION

A 3 year investment linked to the performance of the S&P 500.

If at the Final Observation date, the Underlying is above its strike level, the investor will receive 100% of their capital back plus the Participation Rate in the Underlying capped at 27% Growth.

The Product is 100% Capital Protected so full capital will be returned to investors at maturity irrespective of the performance of the Underlying.

BENEFITS

- Opportunity for growth if the Underlying shows gains above the Strike Level
- 100% Capital Protected at maturity.
- Daily pricing.

RISKS

- The return is limited to the pre-defined investment terms.
- The growth payment is conditional upon the Underlying performance.
- Investors will be exposed to the credit risk of the Issuer. If the Issuer becomes insolvent or cannot make the payments on the Product for any other reason, investors could lose some or all of their investment. A decline in the Issuers credit quality is likely to reduce the market value of the Product and therefore the price an investor may receive for the Product if they were to sell them in the market.
- Should investors need to sell their investment before maturity, the trading price will likely mean they get back less than they invested.
