Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product name	Autocallable Barrier Worst-of Phoenix Note Linked to a Basket of Ordinary Shares
Product identifiers	Series number: CGMFL217104 | CITI-26LEQ116895
PRIIP manufacturer	Citigroup Global Markets Limited (http://www.citigroup.com/). The product issuer is Citigroup Global Markets Funding Luxembourg S.C.A. with a guarantee by Citigroup Global Markets Limited. Call +44 20 7986 2121 for more information. Authorised by the U.K. Prudential Regulation Authority and regulated by the U.K. Financial Conduct Authority and U.K. Prudential Regulation Authority
Date and time of production	6 November 2026 16:27 London local time

You are about to purchase a product that is not simple and may be difficult to understand.

1. What is this product?

Type

English law governed equity-linked notes / Return depends on the performance of the underlyings / No capital protection against market risk

Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product is designed to provide a return in the form of (1) conditional interest payments and (2) a cash payment on termination of the product. The timing and amount of these payments will depend on the performance of the **underlyings**. The product has a fixed term and will terminate on the **maturity date**, unless terminated early. If, at maturity, the **final reference price** of the **worst performing underlying** has fallen below its **barrier price**, the product may return less than the **product notional amount** or even zero.

Early termination following an autocall: The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference price** of the **worst performing underlying** is at or above its **autocall barrier price**. On any such early termination, you will on the immediately following **autocall payment date** receive, in addition to any final interest payment, a cash payment equal to the autocall payment of GBP 1,000.00. No interest payments will be made on any date after such **autocall payment date**. The relevant dates are shown in the table(s) below.

Autocall observation dates	*Autocall payment dates*	*Autocall observation dates*	*Autocall payment dates*
6 May 2027	21 May 2027	8 May 2028	22 May 2028
7 June 2027	21 June 2027	6 June 2028	21 June 2028
6 July 2027	21 July 2027	6 July 2028	21 July 2028
6 August 2027	23 August 2027	7 August 2028	21 August 2028
7 September 2027	21 September 2027	6 September 2028	21 September 2028
6 October 2027	21 October 2027	6 October 2028	23 October 2028
8 November 2027	22 November 2027	6 November 2028	21 November 2028
6 December 2027	21 December 2027	6 December 2028	21 December 2028
6 January 2028	21 January 2028	8 January 2029	22 January 2029
7 February 2028	22 February 2028	6 February 2029	21 February 2029
6 March 2028	21 March 2028	6 March 2029	21 March 2029
6 April 2028	21 April 2028	6 April 2029	23 April 2029

Interest: If the product has not terminated early, on each **interest payment date** you will receive an interest payment of GBP 10.775 together with any previously unpaid interest payments if the **reference price** of the **worst performing underlying** is at or above its **interest barrier price** on the immediately preceding **interest observation date**. If this condition is not met, you will receive no interest payment on such **interest payment date**. The relevant dates are shown in the table(s) below.

Interest observation dates	*Interest payment dates*	*Interest observation dates*	*Interest payment dates*
7 December 2026	21 December 2026	6 March 2028	21 March 2028
6 January 2027	21 January 2027	6 April 2028	21 April 2028
8 February 2027	22 February 2027	8 May 2028	22 May 2028
8 March 2027	22 March 2027	6 June 2028	21 June 2028

6 July 2027	21 July 2027	6 October 2028	23 October 2028
6 August 2027	23 August 2027	6 November 2028	21 November 2028
7 September 2027	21 September 2027	6 December 2028	21 December 2028
6 October 2027	21 October 2027	8 January 2029	22 January 2029
8 November 2027	22 November 2027	6 February 2029	21 February 2029
6 December 2027	21 December 2027	6 March 2029	21 March 2029
6 January 2028	21 January 2028	6 April 2029	23 April 2029
7 February 2028	22 February 2028	7 May 2029	Maturity date

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive:

1. if the **final reference price** of the **worst performing underlying** is at or above its **barrier price**, a cash payment equal to GBP 1,000.00; or
2. if the **final reference price** of the **worst performing underlying** is below its **barrier price**, a cash payment directly linked to the performance of the **worst performing underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** of the **worst performing underlying** divided by (B) its **strike price**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlyings**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price may include accrued interest on a pro rata basis.

You do not have any entitlement to a dividend from any of the **underlyings** and you have no right to any further entitlement resulting from any such **underlying** (e.g., voting rights).

Underlyings	Ordinary shares of Oracle Corp (ORCL; ISIN: US68389X1054; Bloomberg: ORCL UN Equity;	**Reference price**	The closing price of an **underlying** as per the relevant **reference source**

Barrier price	55.00% of the **initial reference price**	**Business days**	London and New York

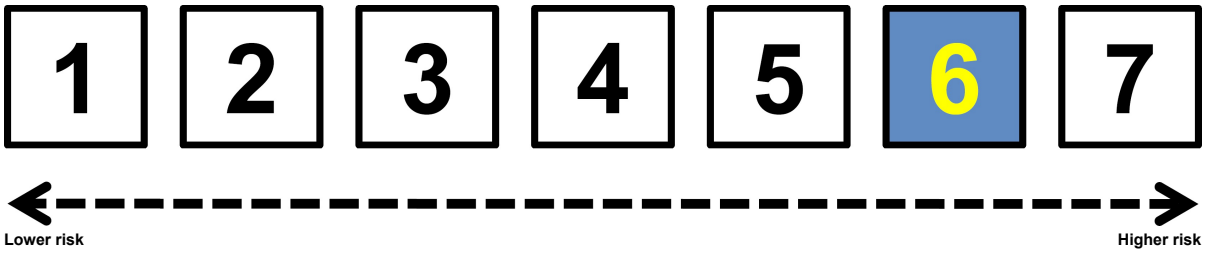

Intended retail investor

The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
2. they seek income, expect the movement in the underlyings to perform in a way that generates a positive return. They have a short investment horizon and understand that the product may terminate early;
3. they are able to bear a total loss of their initial investment, consistent with the redemption profile of the product at maturity (market risk);
4. they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product irrespective of the redemption profile of the product (credit risk);
5. they are willing to accept a level of risk of 6 out of 7 to achieve potential returns, which reflects the second highest risk (as shown in the summary risk indicator below which takes into account both market risk and credit risk).

2. What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 2 years and 5 months. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.

This product does not include any protection from future market performance so you could lose some or all of your investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Investment performance information

Main factors likely to affect future returns on the product

Your return on the product at the end of the recommended holding period will principally be affected by (1) the price at which you purchase the product, (2) the performance of the **underlyings** over the recommended holding period and of the exchange rate between the product currency and the underlying currency and (3) the ability of the issuer and guarantor to make payments that become due on the product. The value of the product before the **maturity date** or early termination of the product will also be affected by general economic and market conditions, the volatility of the **underlyings** (which is a measure of the extent of movement in the prices of the **underlyings**), interest rates, exchange rates, the dividend yield of the **underlyings**, the correlation between the various **underlyings**, the remaining time to maturity and the ability of the issuer and guarantor to make payments.

What could affect my return positively?

• An increase in the prices of the **underlyings**

What could affect my return negatively?

• A decrease in the prices of the **underlyings**

• The occurrence of a barrier event

• Your overall return may be negatively affected if the product early terminates.

• The issuer's and the guarantor's inability to make payments on the product when they fall due

The factors listed above provide general guidance on how changes in the prices of the **underlyings** may affect your return if you purchase the product at inception and hold it to the end of the recommended holding period. If you purchase or sell the product after inception, your return on the product will also be affected by the purchase or sale price and the prices of the **underlyings** at the time of sale or, in the case of a purchase, at and following the time of purchase. The precise impact will depend on the timing and effects of these changes, and the above list should not be viewed as guaranteeing a particular outcome. See "1. What is this product?" for a discussion of how the payments you may receive during the life of the product and the payment you may receive at the end of the recommended holding period will be calculated.

In severely adverse market conditions, if you hold the product to the end of the recommended holding period, you may lose your entire investment.

If you sell the product in severely adverse market conditions prior to the recommended holding period, your return may be lower than what you would have received if you held the product to the end of the recommended holding period and may be as low as zero. See "5. How long should I hold it and can I take money out early" below for additional information.

DocHub DocID: ff0e5c6f-96ae-40d6-8995-d98858dd17b5

3. What happens if the issuer or the guarantor is unable to pay out?

You are exposed to the risk that the issuer or guarantor might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000. The figures are estimates and may change in the future.

Costs over time

Investment: GBP 10,000		
Scenarios	***If you cash in after 1 year***	***If you cash in at the end of the recommended holding period***
Total costs	GBP 412.00	GBP 412.00*
Impact on return (RIY) per year	4.58%	1.76%

* The costs are calculated on the basis that the product early termination feature activates in May 2027 and that you do not reinvest the proceeds.

The “Total costs” in the table above represents in monetary terms the aggregated amount of costs associated with the investment, assuming the product performs in line with the moderate performance scenario. The “Impact on return” represents how much the expected costs of the product would affect your return in such scenario. Disregarding the impact on your return in that scenario or any early termination event, the estimated entry and exit costs as a percentage of the **product notional amount** are estimated to be 5.12% if you cash in after 1 year and 4.12% if you cash in at the end of the recommended holding period.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

The table shows the impact on return per year.			
One-off costs	*Entry costs*	1.76%	The impact of the costs already included in the price.
	Exit costs	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	*Other ongoing costs*	0.00%	The impact of the costs that we take each year for managing your investments.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **product notional amount** is estimated to be as follows: entry costs: 4.12% and exit costs: 0.00%.

5. How long should I hold it and can I take money out early?

Recommended holding period: 2 years and 5 months

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 21 May 2029 (maturity), although the product may terminate early.

The product does not guarantee the possibility to disinvest other than by selling the product off-exchange, where an offer for such product exists. In such circumstances, the price quoted will take into account any costs incurred by the issuer and/or the manufacturer associated with the early unwinding of the product. In addition, the person who sold you the product may charge you brokerage fees when you sell the product (see section “4. What are the costs?”). By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: SFI Sales Business Management, Citigroup Centre, 33 Canada Square, London, E14 5LB, United Kingdom, by email to: EMEA.Markets.Complaints@citi.com or at the following website: http://www.citigroup.com/.

7. Other relevant information

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The offering of this product has not been registered under the U.S. Securities Act of 1933, as amended. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from SFI Sales Business Management, Citigroup Centre, 33 Canada Square, London, E14 5LB, United Kingdom.
